Profile

Recent IT graduate with strong programming, data structures, and algorithmic foundation. Proven skills developed through academic projects and internships. Quick learner, creative problem-solver, and effective communicator. Eager to contribute innovation and enthusiasm in a dynamic professional setting. Seeking a challenging role to apply academic knowledge in a forward-thinking organization.

Experience

INTERNSHIP - WEB DEVELOPER | SAUDI-PLUS | SEP 2023 - DEC 2023

- Designed and implemented user interfaces for the Saudi Plus website, ensuring a visually appealing and user-friendly experience.
- Developed the website using React.js and Tailwind CSS, actively contributing to both the front-end functionality and design elements.
- Collaborated with the team to integrate design requirements seamlessly into the development process, fostering a cohesive and polished final product.

Education

BSC INFORMATION TECHNOLOGY AND COMPUTING (ITC)
2019 – 2023 | ARAB OPEN UNIVERSITY
